

Chapter 9: Column Select and Column Replace Features

The screenshot shows the Oracle BI Interactive Dashboards interface. At the top, there is a navigation bar with 'Home', 'Organization Summary', 'ion with Fund', and 'Specific Organization'. Below this, there are two dropdown menus: 'Select a Measure: Monthly Expense' and 'Select Measure to Compare: YAgo Expense'. A table displays the following data:

	Expense	YAgo Expense
College/Division		
C - Financial Affairs	66,907	3,240,882
Grand Total	66,907	3,240,882

Below the table, there is a filter box containing the following criteria:

- Level 4 Org Type With Name is equal to -, C - Financial Affairs
- and Fiscal Year Long Descr is equal to FY2013
- and Fiscal Per/Month Name is equal to 05 - November
- and Basic Acct Category is equal to AS, LI, FB, IN, EX

At the bottom of the filter box, there are links for [Analyze](#), [Refresh](#), [Print](#), and [Export](#).

Annotations in the image:

- A red box with the text "Some requests contain more than one selector." has arrows pointing to both dropdown menus.
- A red box with the text "The second selector is a Column Selector—it allows the user to determine which column displays in a report." points to the "Select Measure to Compare" dropdown.

Some requests contain more than one selector.

The second selector is a Column Selector—it allows the user to determine which column displays in a report.

A 'Transaction' tab is selected. A 'Choose Selections' panel shows 'Basic' selected. The 'Acct And Name' is 'G254700 - ACCO', 'Fiscal Year' is 'FY2013', and 'Fiscal Period' is '05 - November'. The 'Basic Transaction Detail' section shows a table with columns for Org Name, Post Date, Account Number, Sub Acct And Name, Object Code, Sub Object Cd And Name, Project Code, Org Reference ID, Object Type Name, Document Type Label, Balance Type, EDOC Number, and GL Tr. The table contains four rows of data. Three callout boxes provide additional information: one pointing to the 'Sub Object Cd And Name' column headers, one pointing to the first few rows of data, and one pointing to the bottom of the table with a scroll bar.

Values for the two columns will display the options selected.

Pivot tables typically display the first few rows of data; in this case, the first 25 rows are displayed.

The user always has the option to scroll to the bottom of the report and expand the table to see all rows of data.
