## Mobile Apps from Concur

### Which App to Use When

- Manage your itinerary: Book, change or cancel flights, hotel, car and rail reservations.
- Create and submit expense reports.
- Capture images of your receipts.
- Upload photos of your receipts using **ExpenseIt** which is included within the Concur mobile app. ExpenseIt will read your receipt with optical character recognition (OCR), and automatically creates and categorizes expenses. It even can itemize hotel bills.
- **\*Submit supporting documentation that is not a receipt, such as premium airfare approvals, email approvals, or other images. Email these items to [receipts@concur.com](mailto:receipts@concur.com). They will appear in Concur under Available Receipts and can be attached to your trip.**
- **See all of the receipts you've submitted in your Available Expenses in Concur, where you can itemize them and attach them to your Expense Report.**
- Submit electronic (email) receipts to Concur by emailing them to [receipts@expenseit.com](mailto:receipts@expenseit.com).

- View your itinerary – even plans that you don't make in Concur, such as restaurant reservations.
- **\*Submit itineraries (email confirmations for flights, hotels, etc.) booked outside of Concur to [plans@tripit.com](mailto:plans@tripit.com) and the information will appear in TripIt.**
- Keep track of your reward-program points (and miles) in one spot.
- Receive check-in reminders.
- Receive real-time alerts for delays, cancellations, and gate changes.
- See when the airline seat you want becomes available.
- Find alternate flights with open seats.
- Receive alerts when you're eligible for a flight refund (even for your personal trips).

**\*NOTE:** Make sure you send your email from one of the email addresses you register in Concur. If your Travel Arranger or Expense Delegate (registered in Concur on your profile) is submitting itineraries/documentation for you, they **must add** your NetID email address ([NetID@cornell.edu](mailto:NetID@cornell.edu)) in the subject line of emails they send.
